

Gayle Petersen

Gayle Petersen moved to Maryland from Massachusetts in 1993. She worked in the Frederick County Public School system as a special education aide with a desire to become a special education teacher. She learned Braille and took basic ASL classes at Frederick Community College. After meeting some wonderful people in the deaf community she considered studying to become an interpreter at one time. Gayle currently works at Petersen's Carpet and Flooring with her husband David Petersen. She loves working there and the opportunity it gives her to serve and be active in this wonderful community.
